

## Swidget™ Guide Light Insert

The Swidget Platform is a modular Smart Home enabled system comprised of Wall Switches and Outlets. The modularity of the base devices allows for easy after-market installation of a Swidget Insert that can provide sought-after functions like sensors, speakers or lighting within the receptacle.

### FEATURES

- User replaceable – no electrician required
- Basic night light functionality
- Automatic light sensor trigger
- High Efficiency LED

### DESCRIPTION

The Swidget product line has been developed to support the easy integration of Home Automation and Smart Home markets with unique and flexible solutions. Designed to be installed in any Swidget base device, the Guide Light Insert provides all the features of a standard night light while utilizing high efficiency LED technology. Embedding this within the body of the Swidget receptacle is a cleaner and safer alternative to standard plug style night lights. While no connectivity is included in this version, the Guide Light is a low cost functional device that takes advantage of the modularity for future upgrades. As all Inserts operate on the Class 2 certified interface, no electrician is required for installation or removal.

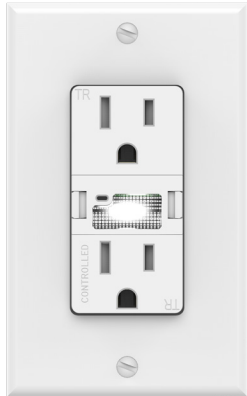

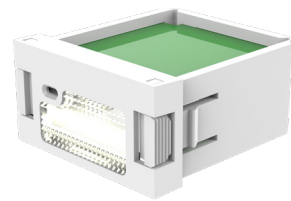

As all Swidget Inserts operate on the Class 2 certified interface, an electrician is NOT required for installation or removal.

### SPECIFICATIONS

Product Number	OP002UWA
LED Color	Warm White
LED Intensity Specification	1960mcd@20mA
Trigger	Automated light sensor
Insert Power Rating	80mW
Environmental	Indoor installation only
Operating Temperature	14F to 104F (-10C to 40C)

### REVISION HISTORY

Revision Number	Date	Comment
000	2019/09/27	Initial release
