

## Swidget™ Power Out Light Insert

*The Swidget Platform is a modular Smart Home enabled system comprised of Wall Switches and Outlets. The modularity of the base devices allows for easy after-market installation of a Swidget Insert that can enable sought-after functions like sensors, speakers or lighting.*

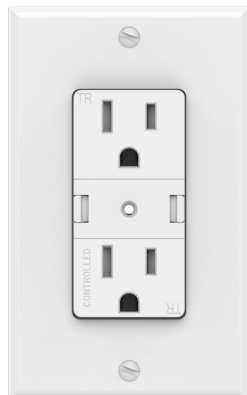

### FEATURES

- User replaceable – electrician not required
- Automatic emergency lighting when the power goes out
- Up to 1 hour of illumination – no batteries required
- Charges up to 80% in five minutes
- High Efficiency LED

### DESCRIPTION

The Swidget product line has been developed to support the easy integration of Home Automation and Smart Home markets with unique and flexible solutions. The Power Out Light Insert provides LED based illumination when the power goes out. Utilizing high efficiency LED output and an energy storage design that doesn't use batteries, this light will illuminate for up to 1 hour on a full charge.

As all Swidget Inserts operate on the Class 2 certified interface, an electrician is NOT required for installation or removal.

### SPECIFICATIONS

Product Number	OP003UWA
LED Intensity Specification	1900mcd@20mA
Operation	Automated illumination at loss of power
Max Run Time	1 hour
Charge Times	20%@5min, 80%@60min
Environmental	Indoor installation only
Operating Temperature	14F to 104F (-10C to 40C)

### REVISION HISTORY

Revision Number	Date	Comment
000	2019/09/27	Initial release
